

# Jan Zdenek

Junior Front-End Developer

+420 606 564 885 ydenekjan@gmail.com in/ydenekjan

Summary

I am an ambitious frontend developer with a sharp eye for detail, strong analytical skills, and team leadership experience. I'm career-focused and driven by results, with a passion for seeing my work used and making a real impact.

- Experiences
- Česká spořitelna – Contractor

November 2024 - Present

Web Applications Developer

Prague

- I design and develop frontend solutions for banking processes at Česká spořitelna, translating complex requirements into functional and scalable systems using TypeScript.

Key Skills: TypeScript | Frontend Development | Analytical Thinking | Banking Processes

ka.soft

June 2024 - November 2024

Front-End Developer

Prague

- Designed and developed custom web applications, creating intuitive UX/UI designs, writing responsive, performance-optimized frontend code
  - Managed the full development lifecycle to deliver scalable, user-focused solutions on time.

Education

Unicorn University

September 2023 - Present

Software Development

Bachelor's degree

- Projects
- Shopping List - Fullstack

[Deploy](#)

- A shopping list management application built with Next.js, TypeScript, and Node.js.
  - Developed a REST API for the backend, reusable components for the frontend, and their seamless integration.
  - GitHub: Backend | Client

Punchstarter - Front-End

- In this team project, I acted as Lead FE Developer, helping my colleagues with API connections and architecture setup in Next.js.

I focused on creating scalable components, consistent design, and aligning APIs with frontend logic.
